

# Florida Hurricane Response Hub's Training List

Enhancing Florida's Ongoing Disaster-Related Health Recovery through Training and Technical Assistance

Building disaster-related public health capacity to enhance environmental & occupational health efforts in areas recovering from 2017 hurricanes

The FL-HRH partners have either completed, or are currently developing, the following activities:

## In-person Trainings for Public Health Workforce

- In-person table-top exercises for FL Health Departments to simulate CASPER post-disaster
- Emerald Coast Emergency Care Conference: includes hands-on sessions to provide healthcare partners strategies for increasing resilience of individuals/communities affected by disasters
- Workshop on Psychological First Aid, which includes building a self-care plan and monitoring of compassion satisfaction and compassion fatigue
- Special Needs Shelter Operations Training for job duties, proper policy, and procedure\*
- Point of Dispensing (POD) and Cities Readiness Initiative (CRI) Training for Activation Readiness\*

(\*these trainings will also be made available online)

## In-person Trainings for Disaster Response Volunteers

- Hurricane Preparedness Workshops
- Resilience Hubs Trainings
- Community Leadership on the Environment, Advocacy, and Resilience (CLEAR) Trainings

## Online Trainings

- Safety Function Action Modules: To achieve and maintain a high level of disaster health and well-being for disaster responders
- Coastal Flood Exposure Mapper Tool Introduction and Demo with Training Exercise: Focus on Storm Surge and Health Layers - to guide coastal community exposure to flood hazards

## Other Resources

- Summary of existing disaster epidemiology tools/resources and CASPER lessons learned
- Online tool for searching resource lists of behavioral health providers by zip code/county for quick reference when responding to areas affected by hurricanes
- Disaster Emergency Medical Personnel System (DEMPS) Info Sheet
- Disaster Response Case Studies: Hospital Surge Capacity and Mass Evacuation Vehicles
- Focus Group Activity and Analysis: Conduct Safety Monitoring and Health Surveillance for Responders based on Identified Risks, Jurisdictional Responder Roles, and Subject Matter Expert Recommendations
